

## PERSONAL STATEMENT

Detail-oriented Information Systems graduate with hands-on experience in data entry, database management, Excel reporting, and administrative support. Proven ability to maintain high-accuracy records, organize large volumes of digital and physical documentation, and streamline workflows for operational efficiency. Advanced user of Microsoft Excel with strong typing accuracy and experience supporting cross-functional teams in fast-paced environments.

---

## EDUCATION

**Stony Brook University**, Stony Brook, NY

**Bachelor's degree:** Information Systems & Applied Mathematics and Statistics

**Graduation date:** January 2026

**Relevant Coursework:** Data Structures and Algorithms, Scripting Languages, System Administration, Database Design, Data Analysis, Numerical Analysis, User Interface Development

---

## TECHNICAL SKILLS

Java, Python, JavaScript, Ruby, Bash, SQL, HTML, CSS, WordPress, Figma, Linux, VMware Workstation, JXplorer, MySQL Workbench, MS Access, Excel, RStudio, MATLAB, Adobe Creative Cloud, Photoshop, Canva, Power BI, Blender, Microsoft Office Suite, Google Workspace

---

## PROJECT EXPERIENCE

### Responsive Portfolio Website

*Dec 2024 – Present*

- Developed a personal portfolio website using HTML5, CSS, and JavaScript.
- Implemented structured navigation and pages to clearly communicate technical competencies to recruiters.
- Iteratively improved UI/UX based on usability feedback and modern design best practices.

### Movie Database Design & Application

*Mar 2025 – Jun 2025*

- Designed and implemented a relational database system for a movie catalog as part of a three-member team, following industry-standard database design principles.
- Developed Entity-Relationship diagrams and converted them into normalized schemas using MySQL Workbench.
- Built data entry forms, queries, and analytical reports in Microsoft Access to enable non-technical users to interact with the database efficiently.

### Linux System Setup & WordPress Web Hosting

*Mar 2024 – Jun 2024*

- Provisioned and administered a Linux (Ubuntu Server) virtual machine using VMware Workstation. Configured core system administration components, including user and group management, SSH access control, firewall rules (UFW), and system updates.
  - Deployed and maintained a WordPress website, managing themes, plugins, role-based permissions, automated backups, and site security.
  - Integrated LDAP authentication to centralize user credentials and demonstrate identity and access management concepts in a multi-user environment.
- 

## WORK EXPERIENCE

### Compass Group / West Side Dining, Stony Brook University

#### Food Service Utility Worker

*Oct 2022 – May 2024*

- Prepared 60+ custom orders daily in a high-volume environment while maintaining quality standards.
- Streamlined prep and restocking workflows to reduce service delays during peak hours.
- Managed inventory lists independently, improving ordering accuracy.

### Lower East Side Preparatory High School, New York, NY

#### Teacher Assistant

*Jan 2021 – May 2022*

- Managed and organized over 100 student records for academic counselors.
  - Supported school-wide events by coordinating logistics for 10+ peers, setting up equipment, and assisting with hospitality tasks.
  - Designed over 100 posters using Canva to promote school events, increasing attendance and participation.
- 

## EXTRACURRICULAR LEADERSHIP

### Website Development Club, Stony Brook University

*Aug 2023 – May 2025*

- Recreated popular websites as coding exercises to build fluency in front-end development and responsive design.
- Led collaborative sessions and mentored new members in HTML, CSS, and GitHub workflows.
