PROJECTS

Website Development for Portfolio, Personal

December 2024 – Present

- Developed a professional website showcasing my portfolio and skills as a front-end developer.
- Utilized HTML, CSS, and JavaScript to design a clean and responsive interface, highlighting key personal and professional information.
- Demonstrated adaptability and self-motivation by continuously updating and expanding the website.

Movie Database Design, Database Design

October 2024 – December 2025

- Collaborated with two peers to design a movie database using real-world data.
- Developed a RDM in MySQL Workbench, created and managed tables in MS Access, and built hierarchical forms and reports for data presentation.

Linux System Setup and Administration, System Administration

March 2024 – June 2024

- Configured and administered a Linux system on a virtual machine, including user management, package installation, file system organization, network and firewall configurations, and SSH configuration for secure remote access.
- Implemented LDAP for centralized authentication and managed a WordPress website, including installation, configuration, and maintenance.

WORK EXPERIENCE

Compass Group/West Side Dining Hall

Stony Brook, NY

Food service utility

October 2022 – May 2024

- Ensured smooth dining operations by bussing tables, monitoring food supplies, and restocking as needed.
- Took the initiative in preparing over 60 custom sandwiches a day according to customer preferences while efficiently managing and organizing stock.
- Played a key role in maintaining inventory, proactively creating order lists to meet operational demands.

Lower East Side Preparatory High School

New York, NY

Teacher Assistant

January 2021 – May 2022

- Provided administrative support to counselors, ensuring accuracy in over 100 students' documents and maintaining a smooth workflow by managing printing, sorting, copying, and shredding tasks.
- Collaborated with over 10 peers to organize school events, handling logistics such as setting up tables, equipment, and stages, as well as preparing food.
- Designed over 20 visually engaging posters for school events and tutoring sessions using Canva to increase awareness and participation.

EXTRACURRICULAR

Website Development Club

August 2023 – Present

- Acquired web development skills by recreating popular websites and designing a personal site using HTML and CSS, gaining practical experience in front-end design and coding techniques.
- Collaborated with other club representatives in tutoring new club members.
